How working with us can make a difference

Here’s what one of our customers has to say....

There are many bills to keep up with in running a restaurant. Having the funds there the next business day makes managing my business really easy.

The more you process, the lower your rate

Get simplified pricing that's based on your total monthly processing volume. With our volume tier pricing, your rates can improve the more volume you process.

What you’ll pay per month if you process less than $15,000 per month

- 2.6% + $0.15 per dip, tap, swipe transaction
- 3.4% + $0.15 per online or keyed-in transaction
- Monthly fees per location are fixed: $9.95 in person, $24.95 for online

These rates apply to businesses that primarily serve consumers; ask us for rates for businesses that accept the majority of payments from other businesses. Custom pricing (interchange plus pricing) is also available for certain businesses.

Point-of-sale systems that do more — process payments and help you manage your business

Want to accept card payments from your customers onsite, online or on the go? We’ve got you covered, from the Clover® suite of products to e-commerce gateways.

Clover point-of-sale systems can help make it easier to process payments and manage your business – all on one device. All Clover products work together, so you can mix and match devices and accessories as your needs change over time.
You may settle your Merchant Services funds to an account at the financial institution of your preference. When you use a Wells Fargo account for settlement or other Merchant Services purposes, you must use a Wells Fargo business deposit account.
